SUMMARY OF NEW NUMBERINGS

The following summary of new numberings of minor planets lists for each object the number, principal provisional designation, date of discovery, observatory code related to the principal provisional designation (which for new-style discoveries may be different from the observatory code of the discovery site) and the names of the discoverers. A separate table lists orbital elements and absolute magnitudes (the slope parameter *G* being 0.15 in every case). Further details, including

additional identifications and residuals, are given in the *Minor Planet Circulars Orbit Supplement*.

SUMMARY OF IDENTIFICATIONS

The following identifications are invalid:

2014 HG₁₀₉ = 2013 AA₂₁₃

MPO 912871

2014 SR₈₁ = 2025 UQ₃₀
 2016 AX₆₁ = 2014 SP₃₅₀

E20 25-V38
MPO 501066

Further details, orbital elements and residuals for the identifications listed below are given in the *Minor Planet Circulars Orbit Supplement*.
